Why choose KUST?

University is the beginning of a new phase in many young people’s lives and Kunming University of Science and Technology (KUST) provides a supportive environment to assist with this transition.

Kunming, the stunning capital city of Yunnan province in southwest of China, is an attractive, safe, and growing city with a pristine environment and mild spring-like weather all the year round. It’s the perfect place where brilliant, committed, creative people come together to learn, work and live.

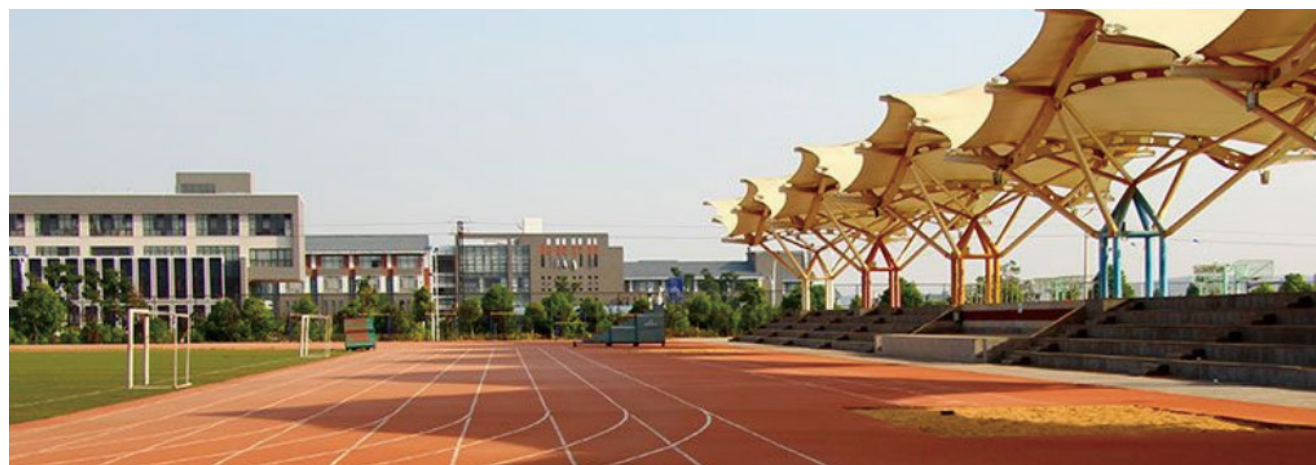

KUST ranks among top 100 universities in China and is the largest and the only polytechnic university in Yunnan province. The university consists of three campuses including Chenggong, Lianhua and Xinying, all located in Kunming and covering a total area of 290 hectares.

Our 35 faculties (schools, colleges, and research institute) in a wide variety of disciplines—engineering, science, management, economics, medicine, law, arts, philosophy, agriculture, education, and more—provides students with an excellent academic experience in and out of the classroom. Over 300 bachelor’s, master’s and doctoral programs will prepare students for their personal and professional success.

KUST is a research-intensive university with an outstanding reputation for its strong links with industries in China and around the globe. Its wild recognition in research helps attract and retain exceptional faculty, and enhances experiential learning and student research opportunities. The new knowledge produced from our cutting-edge research benefits communities locally and throughout the world and helps society move into the future.

Rankings & Achievements

- **No. 55 among all universities in China** by CUAAs Rankings 2022 (cuaa.net)
- **Top 1% disciplines worldwide in ESI Rankings:** engineering, material science, chemistry, environment/ecology, plant and animal science, agricultural sciences and clinical medicine
- **NO. 77 among 1,223 universities in China** in Faculty & Teaching Development Index Rankings 2021 by China Association of Higher Education
- **Top 50 university in China** granted China patents in 2021
- **Among the first-tier universities in China** for first-class undergraduate program construction at both national and provincial levels by 2020
- **No. 1 in Yunnan** for China's State Science and Technology Awards Winners in the past 10 years
- **No. 1 in Yunnan** in NSF research rankings for 11 consecutive years (NSF: National Natural Science Foundation of China)

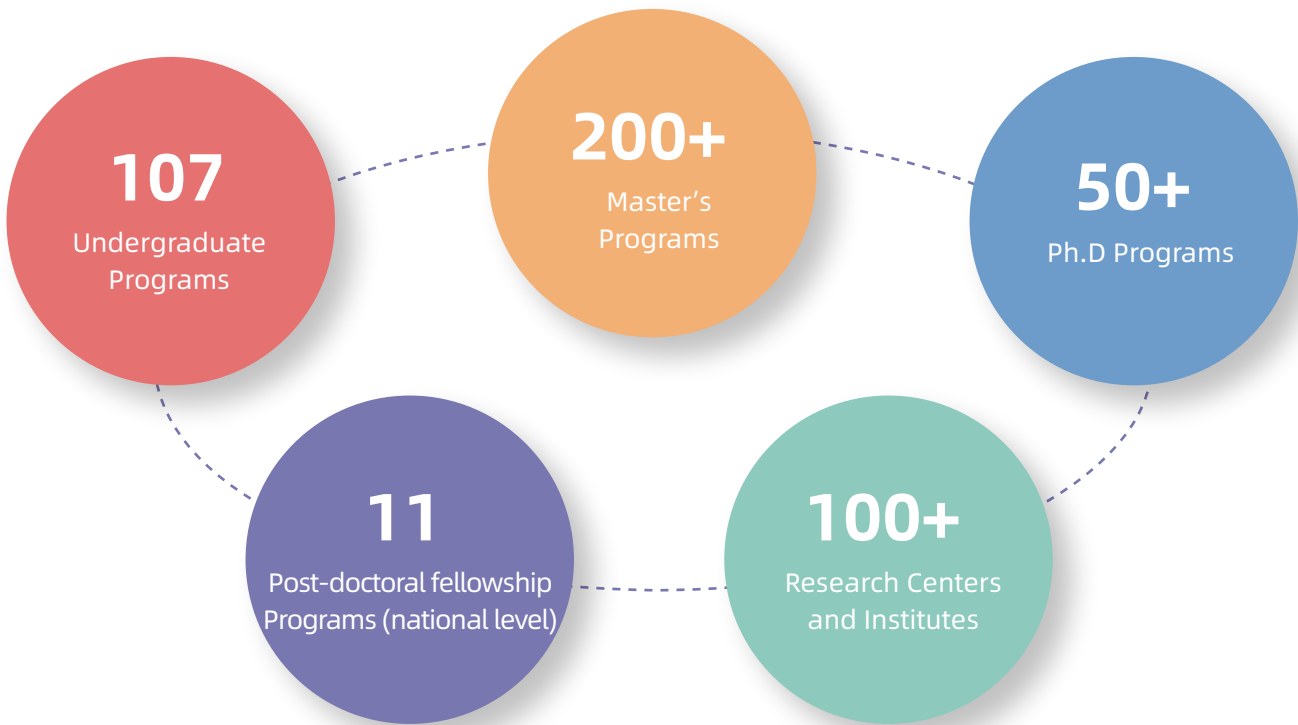

International Linkages

KUST links with over 110 leading educational institutions and organizations spanned across 30 countries covering research collaborations, credit arrangements, teaching collaborations, study abroad and exchange programs, and joint program delivery.

Through a collaborative network of partners across the world we continue to bridge local and global education to bring the world to KUST so our students can become better global citizens. The worldwide network also motivates us to seek cooperative and innovative responses to a changing world as well.
